Hello!

I've made an E-book about Instagram CPA, you can earn with this way money without any investment but with investment your earning will get higher :D

your earnings will start by 1\$ a day to 20\$ a day but you can get it higher it all depend on how much time you put in that.

If someone is new to CPA there's also an explain about what is CPA and an explain about youtube CPA but main is how you can earn with or without investment on instagram using CPA. it's my special tactic i won't tell the earnings are guranteed because not anyone would put their time in that, but i can promise that if someone follow the guide as it is and put in that all the time it's require you'll see great results!

it contains full support using PM on here!

to purchase the e-book - <https://rocketr.net/buy/514011c46094>

Price - \$4.99

5 Vouch Copies available

Terms of use:

1. After 1 week of using, if no earnings then you'll get 100% refunded.
2. If you resell this method, post it free somewhere, you won't get refunded and you wont get any support.

Is the method buying followliker or massplanner application and creating a lot of instagram accounts and adding them on it with OGADS as CPA website?

I am not exposing nothing since I did not receive a copy of your ebook, this is just the most known public method.

You're right, no it's not the way. PM me if you want vouch copy.

I got vouch copy from OP and going to write my "honest" review, the review is based on MY opinion on the method...

btw the public method i wrote i believe it is FAR more effective :/

The Method 3/10

The only reason I give 3 is because it works and you can make money but the method is the top of the public methods, even someone who never used CPA can know these things you wrote, but yes it is going to make you money (low of course) but the method itself doesn't worth since there are others ALSO public and better.

Ease of Use:

It is easy, doesn't need brain, but it takes enough time.

Layout:

No images, no fonts, just title text and simple text, in white page

Overview:

In general by my personal opinions i believe it is not worth \$4.99 this method, you basically say things that is known even to someone who never used CPA.

Just by using google the right words you can find better :/

If I had paid 5\$ for this, i would highly regret it.
