Thread: [Need help - Looking for a legit money making method](#)

Aim - April 19, 2017, 10:00 am

Hello HF,

All the money ebooks I've bought are really not effective, and most don't keep their promise.

I mean, for example, I bought a method that guaranteed hundreds on autopilot, but in fact it was just hard work and I could hardly make \$20/day.

I also had a bad experience with ebooks that says "are you tired of wasting your money on [...]"

Anyways, I'm looking for a money making method with the following specs:

- Autopilot, or easy/doesn't take too much time. Because I still go to school and I don't have time.
- Guaranteed to make me at least \$50/day
- Doesn't involve bullshit like e-whoring, affiliate, CPA, ads, eBay reselling, etc.
- Unique, something I've never heard of, and that not a lot of people already do it.
- Legit earnings proof from real customers that aren't friends/paid to review.
- Not more than \$30. But, I can pay \$30 for the ebook and pay even more if I get money out of it later.
- Not leaked anywhere.

If you have something like this, please tell me.

Thanks!

I understand where you're coming from. I'm waiting for this one guy to message me about a gig. If it turns out to be legit, I'll let you know so you can actually invest your money and time into something that's worth it. I am also tired of wasting money on garbage so I need teamviewer or some kind of actual proof before investing a fine into anything else on here.

So you are willing to pay a max of \$30 but you want a method that earns you AT least \$50/day? You are special, aren't you?

I don't see a problem with this, eBooks shouldn't be too expensive. Maybe just lessons would cost a lot.

I can recommend bustabit.com if you know when to stop the betting.

Who are you even talking about?

Edit: your eBook must be making a lot of money, so much money that you actually need to do small favours for BTC as opposed to just buying it with the thousands in your bank?

If you made more money by investing in that method, wouldn't you then have enough money to buy BTC, or am I not seeing something here?
