Thread: [Hi all. I am looking for a Rat with thumbnail image preview in the file manager](#)

madrobjames - April 19, 2017, 4:05 pm

Hi all. I am looking for a Rat with thumbnail image preview in the file manager

M?xim - April 19, 2017, 4:07 pm

You should check out the [Remote Administration Tools](#) section.

I dont understand the point of the poll?

Pick Luminosity, Imminent Monitor or Orcus, ALL/ANY of these three will suffice for your needs. No need for a useless poll lol.

Goldmouth - April 19, 2017, 5:29 pm

i vote for C++, anyone else?

[Orcus Remote Administrator](#) has this feature:

Big Picture [\(Click to View\)](#)

I think the user thought they were thread tags possibly?

ONURIS - April 20, 2017, 4:47 pm

njRAT 0.7d has this feature , it's free also
