I have many creations made just not in a portfolio at the moment. I am happy to offer you a vouch copy as my first customer.

Looking to do some work. Will get done with a quick time frame.

Donald Trump Jr. - April 21, 2017, 7:51 pm

Bought a logo, and this guy is one of the best graphic designers. I didn't have to tell him what to do or how to make it, he took the project on to himself and completed it in under 10 minutes. I don't know how he made such a good logo in such a short period of time, but this guy is the real deal. I recommend him 100%.

\$10 BTC for mine. I would say its alright.

The image he used was one found online and added some little bits to it.

Don't get me wrong it ended up looking amazing but feedback to the user really.

9/10 good job and thanks :)
