Thread: [Positive rep removed.](#)

No Zodiac - April 20, 2017, 4:14 pm

All my positive rep was removed a month or two ago. One day just came into HF and had -15.

My negative rep is messing with me as I trade Bitcoin on buy/sell sites and I literally can't buy any because of this rep. Most of that rep was to do with trades also.

2-3 of the negative reps are from banned users for false net reps and multi accounting.

Most likely got rep fucked.

Recommend you delete this thread, and read the [Help Docs](#). Since this is not how to solve it.

Perhaps reading the help documents would help you understand what happened to your account a little bit better?

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
