Hey there.

I am offering you guys a free RAT Setup service for Windows Users.

The best way to handle out a time for the setup is, if you hit me up on skype and we will handle something out. You can also pm me on hf. You should pm me the best times to do the setup, and the time zone you are living in.

My skype is: tom.camel1

I don't have R A T yet ,

can you setup any freeware for me on my P C ?

And also provide me some advice about using R A T

inbox me or reply here , so i will get back to you with details.

Thank you

and also suggest me some good R A T that can be used for anything
