It's a great game; you should really give it a try. As per the game creators request, I can't tell you anything about it, but I can give you a trailer...

Not new and never heard of it.

Surprising and interesting.

I'll probably end up giving it a try whenever I have the time.

Haven't played the flat version of this game but have finished the VR game multiple times, very fun and I love the whole time moves when you move mechanic.
