Thread: [My Giveaway Thread Got Junked](#)

EasyPeasy - April 22, 2017, 6:54 pm

Hello,

my recent coupon code giveaway trade got junked, I was wondering for what possible reason, to ensure that I never make this mistake again.

Thank you!

Well if it got junked, then there was something wrong with it. What were you giving away coupons for?

Charger - April 22, 2017, 6:55 pm

PM staff. What exactly where yo giving away?

Perhaps, you should ask King of Hearts.

He's the one who gave you a marketplace violation. You should be able to see this in the User CP.

A 90% coupon code is not a giveaway and does not belong in "Free Services and Giveaways". A 100% coupon code is a free, 90% is not.
