"Car Dupe"

Fairly sure that's from arma 2 or unless you talking about the backpack one? then no it definitely isnt that one that's public everywhere.... If you would like proof how about adding me and requesting it instead of talking shit :)

No.. nothing like that

All the people PMing me saying that they'll buy it... Add me on skype so we can discuss purchases rather than pming me as i don't have the ability for that yet.

You have -3 rep, no proof that it works

You should give away a vouch copy, I'd like to get it if you deem me trust worthy

Mainly as i don't use hack forums often and havent used this account since like 2013/14... Happy to give demonstrations as proof once talked to on skype although i've already given out vouch copies on the main websites that i use so not fussed about the traffic received from here tbh.
