Thank you sir!

Do you know any good brushes for Photoshop?

G--D - April 27, 2017, 4:13 pm

well honestly its not hard to make like this !

all what you need to is make some rounded brushes like points then go to path tool then make lines between each small cercle (brushe cercle) i hope this will be clear if not let me know

There is also a plugin out there: <http://aescrpts.com/plexus/>

Kind regards,
J.
