Thread: [How to bypass sqlmap 302 redirect ?](#)

mehran - April 26, 2017, 2:24 am

How to bypass in sqlmap 302 redirect ?

[13:20:46] [INFO] testing connection to the target URL
sqlmap got a 302 redirect to 'http://www.foobar.xyz/'. Do you want to follow? [Y/n] Y & N commands stop sqlmap to do injection

Thanks :)

The Beep Beep Sheep - April 26, 2017, 6:39 am

Get the link it redirects to..? I'm not entirely sure what's the problem.

mehran - April 26, 2017, 10:26 pm

@The Beep Beep Sheep bro help me with this sqli

<http://bakutech.net/index.php?route=product/category&path=62%27>

Uh, yeah. I can. Not from my phone though. I'll take a look when I get back to my laptop.

Ethicalmen - April 27, 2017, 11:31 am

If you can't inject that vulnerability.

Then you should maybe take on of the others they have.

They have a ton of vulnerabilities.

The Beep Beep Sheep - April 27, 2017, 11:32 am

Although just for your information, I am not helping you hack some random guys database lol. I will explain to you how it can be done, I am not giving you the info.

Thanks, saves me time :P.

Should be a good target for learning then, if OP wants to learn webapp security.

Ethicalmen - April 27, 2017, 11:35 am

If you need help or anything, feel free to ask me on twitter, not active much here :-)

@Ethicalforces

I am using most of my time researching Webapps.

mehran - April 27, 2017, 10:53 pm

so, can u help me get inject here ?

Why you ask for same site across different HF sections? Site has WAF and you should bypass it...

mehran - April 28, 2017, 2:41 am

How can u inject in here ?

0xw33p - May 1, 2017, 1:54 am

Very interesting WAF, I am soon going to try to bypass it =)

mehran - May 1, 2017, 10:02 pm

and who can give me payload ?
