Thread: [\[FREE\] VPN-RAT SETUP NO PORTFORWARDING](#)

onsomeshiz - April 27, 2017, 5:12 pm

Hello guys, I felt like It's time I gave back to HF a bit, for anyone and everyone wanting to set up their rat, not wanting to port forward or purchase a VPN. I have a method that I have been using for a while, It requires no portforwarding and is bulletproof, It's a simple setup, I will be providing this service for a while FREE of charge, It keeps you anonymous and will keep your clients connected to you at all times with NO issues the only part you must take care of on your own is crypting your server, everything else I will take care of. If you are interested and would like me to provide you with this service feel free to post here or PM me

-OSS ?

Redblock - April 27, 2017, 6:28 pm

Hi,

i'm interested, can u tell me more pls ?

onsomeshiz - April 27, 2017, 6:30 pm

Yes! just PM me ?

PhantomComplex - April 27, 2017, 6:57 pm

Hey man! Can't PM yet but you helped me on my profile. I'm setting up a trashtop soon so I can put full effort into my programming and hacking, I'd love to have this service on my side man! If you could start a PM with me that would be amazing. I can provide multiple payment methods for an extended period of time. Thanks!

sent you a PM!

Test12345lol - May 18, 2017, 7:15 pm

I'm interested, can you PM?

nosdi69 - May 21, 2017, 5:26 am

please inform me,,thanks in advance

IIIIIIII - May 21, 2017, 5:35 am

Looks interesting, send me a PM please :)

Yousef_13337 - May 21, 2017, 6:41 am

Any pm would be ok to help me :D

Sk4nd3rbej - May 21, 2017, 4:36 pm

hi i'm intereset please tell me

dtroo - May 21, 2017, 8:55 pm

very interesting, wondering if it will actually come out

LeakerTM - May 22, 2017, 4:52 am

This is sound very legit :)

free VPN from a Hacker....

ShiningMatter - May 22, 2017, 3:54 pm

I'm interested, but I can't pm you 'cause I just signed up, could you please pm me? Thank you

Last_viking - June 13, 2017, 12:56 am

Even I am interested in this

Op

Please hmu

Thanku

HzAKZer - July 25, 2017, 4:01 am

Could i please have ;(!!!

This should be interesting...

I would like an explanation how you intend on deploying a Remote Admin Tool, or any network related tool that requires inbound communication from the internet to within the infrastructure without port forwarding, OR using a VPN tunnel that supports this.

You just need to run the tool that OP made. It's called "Free Super RAT Setup.exe"

An7y - July 26, 2017, 4:38 am

Hey it sounds good, please PM me :)

onsomeshiz - July 27, 2017, 3:47 pm

The VPN supports forwarding, but it's free, some of you may or may not know about the method I use, It's more of a beginners method.

(Jul 25, 2017 06:23 AM)Evanescence Wrote: [\[CITE\]](#) You just need to run the tool that OP made. It's called "Free Super RAT Setup.exe"

I clearly state that a free VPN will be in use during the tutorial, the free VPN I use supports forwarding ;)

sgshadow - July 30, 2017, 7:01 am

hi! Friends!

Can you tell me how to set it?

luuca - July 30, 2017, 10:10 am

Hello onsomeshiz! :D

I would be interested in this becuz I have no access to my router so i cant setup a rat. Please PM ME!

Senpai onsomeshiz ! xD

jaco339 - September 13, 2017, 4:58 am

i'm interested Can I get one pls?

Dark Shady - September 13, 2017, 9:24 am

I need help with this too. I can't open my default gateway.

I can't PM you yet. Maybe you can send me one, thanks.

THC - September 13, 2017, 10:55 am

a) Post this in the RAT section

b) I would recommend finding a more trusted user to work together with on this - you have a kinda "meh" community standing.

onsomeshiz - September 13, 2017, 11:01 am

Don't see why I'm considered a "meh" user on here I would like to improve on that, and I closed this service a while back just haven't been able to get this post removed. please do tell who considers me "meh" I would like to know.

ghostsector - September 14, 2017, 7:42 am

Must say I am interested indeed. Please do PM me.

T.I.A

hi_man - September 14, 2017, 11:04 am

I will vouch for this if i found it good :)

thanks
