Spelling & Grammar (8.5/10)

While there are a few verbiage and grammar inconsistencies, the E-book is very clear and easy to read. The book is written by a clear English speaker which is reflected in the writing edicate.

Readability & Organization (9/10)

The e-book is extremely simplistic in nature, which is a good thing. Rather than being bogged down with pretty pictures and colors, its focus is on the information and presents each method with long examples and descriptions for each avenue of monetization. There are long blocks of text that may be easier to sift through; however, it does not impede the actual methods the e-book wishes to convey.

Actual Method(s) (8.5/10)

There is no prior knowledge required and any these avenues of making money can be accomplished by anyone regardless of age. Some form of proper communication, whether it be through text or actual speaking, is necessary for these methods to show return, but it is extremely easy to do and the better you are the more return you'll see on your investments.

Most parts of the method do require some form of initial investment, though it is extremely minimal depending on the scale of profit you're hoping to achieve. The time for seeing actual profit from this solely depends on you and how you go about deciding to implement what's contained in the e-book. As I've said I have seen and done this before, but for those newly entering the world of making money online this will help you understand ways people do it.

Support and Walkthrough (10/10)

This area is something I'd say is what separates this method from others. While it may not be something never seen before, OP is extremely attentive and has a great response time in my conversations with him which can aide in your attempt to follow through on these methods. Specific questions and details about implementation are easily answered by him with long explanations over the subject.

If you have any specific questions that pertain to my review and not the actual contents of the product, please let me know. (Apr 28, 2017 01:31 PM)? THEINsPIREDONE Wrote: [\[CITE\]](#) Vouch for OP!
