Hey,

I was wondering if anyone has the time to create a simple logo for my steam / Cs:Go team.

Name: Black Magic

thanks,

Guess I can look into it someday if I get the time.

But for me, and everyone else.

Colors?

Fonts?

Style?

Guns or something?

Give people an idea of what you want, or expect some weird stuff.

Just something I tossed together quick.

This is simple as fuck, I'm sure much more polished logos will come soon.

As I am getting tired and know I wont get time to do anything in the coming days, hit me up if you want this as it is, or done "properly".
