Thread: [Changing my grades in the university database](#)

Please let me know if this is against the rules and I will remove immediately

I was very ill for the first 4-5 weeks of my course this year and it has put me quite behind, I've applied for extra consideration but it's not looking like I will be able to get it verified due to not seeing any doctors so not being able to get any legitimate proof.

I really want to save my grades and I am working very hard to catch up but I'm afraid it might not be enough to get me over the line.

Therefore I am looking for someone that can do this for me.

Please PM me.
