Join my discord server, I can dupe my gear for you and we can squad up:

Hey is anyone interested in playing DayZ Standalone with my squad tonight? I am cheating, using my own cheat. I will give you call outs on players locations. If you are someone other than NWAFF my squad will pick you up and bring you to NWAFF. Just join my discord channel and you will be automatically placed on the roster and I will DM you when we are ready. We will provide gear.
