Thread: [Quotes for the word "Shortcut"](#)

Shortcut - April 30, 2017, 2:53 pm

So, thats my hackforums username. And i really love it but I want to find a meaning with it if that makes sense.

Do you guys know any GOOD things or quotes about the word?

I dont mean stuff like, "no shortcuts to success"..

I mean something positive about the word.

??

Very deep word, but sure there is. I saw one quote> Work smart, not hard.

Thats some type of quote that revolves around the word shortcut.

Already checked it out, filled with "no shortcuts in life" etc..

Thanks though :(
