Dawn - Stress Relief Help Desk

IntroductionHello, firstly welcome to my stress relief help-desk. I would like to tell you about myself. My name is Vittorio, I'm 23 years of age. I was born in Sweden and moved to America, Michigan at the age of 4. Grew up like an average kid, but was always quite and seemed to find myself more happy alone. Skipping years ahead my Father opened a restaurant, while i was young he taught me how to manage and operate a restaurant. When I turned 20 he handed the business over to me, after some years I branched off and opened another one. Now that you got the jist of me the main reason I'm creating this desk is due to the fact not many people have someone to speak to whenever they may run into a problem.

This Help Desk will be a user to user desk for everyone to try and help each other out and talk through their problems. I will also be helping users as much as I can when I have free time.

Great timing on the thread, especially with school winding down for the summer. Who couldn't use some help through the struggles of dead week/finals. I know I could.

I really like the idea behind this thread. I might use it someday for things I prefer not sharing with friends & family in real life.
