Just bought 585 Strat, investing for the mid-long term.

Let's see how this goes.

Goodluck with your investment ?

May the rise be with you!

You're gonna be rich boy.

DogeBoosting - May 1, 2017, 2:22 pm

Great choice. Stratis is leading all crypto currencies in the month of April with a +268.95% gain! Meanwhile everyone goes FOMO on ETH ETC and XRP ? We're still unnoticed, but not for long!

temp_2578393 - May 1, 2017, 2:26 pm

Great to see you investing in Stratis, may we all get rich ?

GloryToBe - May 1, 2017, 2:36 pm

I believe in Stratis having a lot of potential and has the ability to rise a lot.

Poloniex isn't a bank.
If poloniex gets hacked so does your wallet.
It's probably best to have it in your own wallet :^)

Also, what makes you believe in Strat so much, why do you think it will grow?

I know basically every bit of current information on stratis. It is without a doubt going to be the best cryptocurrency and the best platform around. Stratis has the potential to one day pass ethereum.

Check the website if you're looking for why it's a good coin.

I think it'll rise because of the low amount of them of available and it just dropped a decent amount.
