Thread: [How To Create Your Own IMSI Catcher To Read And Intercept SMS Text Messages And Calls](#)

Demoralise - May 2, 2017, 3:58 am

Hackforums would not let me post this information for some reason, so I uploaded the info to [HERE](#)

Enjoy! ?

If somebody is willing to record a video of their process creating this to share with everybody visiting this thread that would be great!

FreakyVille - May 2, 2017, 10:23 am

What if you wanted to be specific and catch a particular persons sms, would you have to be next to them. Could you explain how this all works.

llama77 - May 2, 2017, 4:30 pm

Cool share thanks gonna look into this.

Sublett - May 5, 2017, 1:45 pm

Hey, thanks for sharing man!

<http://www.delaat.net/rp/2015-2016/p86/report.pdf>

Not very effective as stated in this scientific paper.

Noshy - June 4, 2017, 9:28 am

Posting to read again

Thanks

Cheers

Meloz - June 4, 2017, 3:25 pm

Going to take a look into this, seems very interesting.

Master19 - November 9, 2019, 4:40 pm

it is very very very interesting, i tried but not really straight forward thing. but its crazy how u can intercept not SMS but also calls.
