Think about it. His method claims to generate \$6,000 per month. He's selling it for \$40.

I strongly advise you to stay away from eBooks and instead spend money on someone who can personally teach you a thing or two (aka mentoring).

I will send you a PM with my Skype and Discord and try to answer any question you may have about earning money.

NEVER buy an ebook. That's just a rule. The only thing that ebooks are ever good for is looking at some methods that were used and worked maybe 5 years before it was posted now. Methods only ever get sold on here when they are extremely saturated or don't work anymore with the niche. It's just common sense and you can't say that you wouldn't do the same if you were in the same position.

Don't fall for it. When someone leaves a bad review they remove it

Sorry if this is a stupid question, but how can they remove it? I thought users couldn't delete posts unless they were staff?

When you have a paid sticky thread for 2 years this is nothing special
