Thread: [FREE simple logos/banners // click for details](#)

Oracle - May 2, 2017, 11:54 am

im going to be doing free logos, banners for youtube, twitter etc...
as long they arent anything too over the top
as in nothing hard to make or anything that would take too much time,
(this is free!) then its fine and i would be happy to make them.
please give me details such as: font, what you want, colours, theme...
i will try to do everyones
but please be patient and dont be a dick to me or anyone else on this thread while you wait,
which i know you wont ;)
because this is only free, i might stop doing this after some time,
then please check latest post/page on this thread
to see if i have posted anything saying ive stopped (because i cant edit threads after some time),
until then,feel free to comment down what you would like me to make for you.
im not always free due to school, so please be patient.
if your satisfied with what you got then in return i would like a vouch.

please be nice because this is the first time making a thread like this,
and am i cunt for asking for vouches, idrk.
and im also trying to improve,
so if you see something you dont like,
either say something that could help me out,
or dont say anything at all.

REQUIREMENTS: more than 25 posts, and more than 6 hours spent online.
(as of 13th may 2017)

Hello,

I am looking for a banner for my YouTube channel, the channel will be gaming based and I am just looking for something simple, purple and white look good together the picture can be anything really and i do not really have any text preference other than something simple and clean looking. I also need a avatar for the channel if you are interested in doing both.

Here is the channel link: <https://www.youtube.com/user/WePlayAsOne>
