Can anyone make that into Python?

I am aware this isn't the market place however I feel this is the best section for it, a reward will be given for the person to do it? After reading the rules a reward is allowed right?

Code Bittrex.getMapsFromResponse(wrapper.getOrderBook(coin, "sell"));

No one will convert an entire library from Java to Python for you.

?ictor? - May 2, 2017, 4:16 pm

It's not that hard to convert yourself, nothing too crazy from me skimming through it.
