Thread: [Fastest way to unlock and lock a gate?](#)

Sharjah - May 3, 2017, 12:45 pm

So I moved into a new place and I park my race car in the patio, but in order to get in and out of it, I have to unlock the lock and take the chain off, then lock it before I leave. What's a faster way that isn't automatic? Apparently automatic is nsad 3,000\$, so I just need a faster alternative

How do you expect to unlock a gate any faster than manually if automatic is out of the question ?

Alternatives other than a chain and code lock??

Toby Flenderson - May 3, 2017, 12:58 pm

Just set up a ramp and do a sweet jump into the patio. You will still need to undo the lock to get out with this method though

I would assume you could google something like this?

<https://www.pinterest.com/explore/gate-locks/>

^doesn't look like there are many options for you to save time unless you get something automatic.

Come on man this is HF aren't you a billionaire? 3k should be pocket change to you.
