Thread: [> > COME AND JOIN CryptoCoin - Must join for investors. NEW BOT FOR PRICES](#)

Mr. Robot - May 4, 2017, 6:22 pm

We successfully revived the crypto section, and it's thriving but for those of you who would rather talk in real time with others about the coins prices and investments - come and join in here.

<https://#/YjNegWd>

I'll get a proper thread and everything sorted later on but if you are truly interested and have investments or want to start - this is the group for you.

We now currently have !price coin which will pull the prices and display them! Coded by [Izuku Midoriya](#)

Not sure if Omni is going to like this.

It drives activity away from the forum.

Anyway GL

Just joined the group and I'm absolutely loving the bot coded by Robot.. Honestly it has way more coins than I originally thought it would.

Will have a chat when I can.

Mr. Robot - May 9, 2017, 7:52 am

Looking for more people to come and join - real shame to see people joining the other channels that are really autistic and then there is ours which is really great.
