Looks like a fairly nice file hosting website.

I like the design to it, very modern-looking. Good luck with your site.

I'm curious, in what way/process is a request for removal of a file being handled?

Marriot170 - June 7, 2017, 8:53 am

You contact me with File ID/Link + valid reason to remove it.

is down the page again what happened? .

LeafylsAQueer - July 22, 2017, 2:26 am

Cause nobody else on this website doesn't own a file hosting site. Let alone on any surface on the web.

Pretty sure this isn't allowed so I'm just going to go ahead and report this thread.

Dr.Web - known infection source

Probably doesn't help that you have a botnet panel hosted on the same IP.
