Thread: [Best Windows Rat Needed \(Paid / NO JAVA\)](#)

Longdog - May 5, 2017, 3:50 pm

No java, no "legal use only" rats and no .net if possible. I need Reverse Proxy and RDP manager and Password Recovery. I prefer no .net but if needed sure why not. Also any good .docs/.pdf exploit builders?

I'm not retarded, just looking for some pointers as its been ages since I've ratted.

Jesus fucking christ, no wonder I want nothing to do with this fucking section anymore.....This is funny.

I wish Omni would close this selection or stick a few threads up.
