Thread: [Unmasked IronMan \[Low Poly\]](#)

WickedChoco - May 6, 2017, 7:24 am

Yo, what do you guys think?

F?cqle?? - May 6, 2017, 7:25 am

I think I need my glasses.

WickedChoco - May 6, 2017, 7:28 am

No, I used Pentool to make the triangles and Average blur to color them.

Oracle - May 6, 2017, 9:13 am

this actually looks pretty good, but imo not clear

Novica - May 6, 2017, 11:51 am

From what I can tell, you used only triangles, which is good. However, a lot of them seems to be choppy. How exactly did you make them? Pen Tool - path or shape?

Also, you can tell it's an Ironman, but it could use a lot more work. His face for a start, it looks weird, especially around the eyes.

Same thing I was thinking lol.

Damn OP if you really did all the triangles separately good job, it looks fairly nice. 6.5/10

Pen Tool - path or shape?

Also, you can tell it's an Ironman, but it could use a lot more work.

His face for a start, it looks weird, especially around the eyes.

Pentool Path > Make Selection > Average Blur

Triangle by triangle.

Polygonal Lasso Tool can work too, it's more because it automatically makes selection.

Cryptolution - May 6, 2017, 5:22 pm

Looks a bit to busy in my opinion would have gone for a bit more organised but overall the concept is awesome and the end result aswell would rate it 7/10.

nothing is perfect right

Futurefreak - May 7, 2017, 10:49 am

I'm not sure how I feel about this, 5/10

Novica - May 7, 2017, 11:08 am

Triangle by triangle.

Polygonal Lasso Tool can work too, it's more because it automatically makes selection.

Try with shapes next time.

It will look much cleaner.

What?

If you are not sure how to feel about it, what's the point of rating his work, or even posting?

If you are going to whore-post, do it somewhere else, not in RMG.

poisson - May 7, 2017, 11:13 am

Looks as if he just got out of the burn victim ICU.

Could it be made with anymore detail? It's kinda hard to distinguish any of his facial features.
