I have been waiting well over 2 months for my \$700 codes.

Will open a dispute very soon as I actually thought I could wait on Confound and have them given to me as supposed.

Doesn't bother to answer my Skype, well over the fact I lost \$700 but just a sad moment as we were both making good money.

BRO, he's got a few CA open already sadly.

If he actually gives the codes and I can use them I'll gladly buy more.

We've had over 5 successful deals (about \$2.5k). I really don't think he is intending the 'scam' but the codes get fucked-up for whatever reason, even if you say carding which could be.

Like I said, he profited, I profited. Last two codes didn't redeem as intended so if he replaces them I can be satisfied and continue to buy more as I was making good money, if he doesn't, expensive lesson learnt and I hope no one else has to.

Because according to him, CA's mean nothing and every scam report that you try to open he will get it closed for 'invalid reasons'.

He also told me that.

Anyway, as I told you, if you have enough proof, go ahead.
