There is a chance. You can search before paying to see if the person you are looking for is in the DB, you will be required to pay to reveal any logged information though.

The DB mainly consists of people from GTA: V and BO2 on Xbox 360 as shown below.

Added some resolvers to the website completely free to use! Got tons of stuff on there that i'm sure you guys would love!

Credit Union - May 25, 2017, 5:30 pm

What exactly does this do... super confused?

Lor?d - May 25, 2017, 5:40 pm

(May 25, 2017 05:30 PM)Unregistered User Wrote: [\[CITE\]](#) What exactly does this do... super confused?

The DB lookup is a constantly growing compilation of Xbox Live users Gamertags, IPs, XUIDs, and more. Mostly logged on GTA:V and BO:2

All you need to do to find their IP if they are in the DB is type in their Gamertag. If they've changed their Gamertag you can easily copy the XUID into the XUID To GT resolver and get their current Gamertag!

Credit Union - May 25, 2017, 7:11 pm

How many active users are they're on it?

Lor?d - May 25, 2017, 7:39 pm

(May 25, 2017 07:11 PM)Unregistered User Wrote: [\[CITE\]](#) How many active users are they're on it? Using the website or in the DB?

I can't give specifics on the website cause i'd rather not have my income public but the website has 4k+ total users with a good majority of them using the DB

The DB has over 800k users in it.

Been away from HF for quite a while. Re-opening this thread since I am starting my black friday/cyber monday deal!

Be sure to use code "BLACKFRIDAY" when checking out through selly for 50% off.

If you pay via Cash App or Venmo just send half of the normal payment, this sale won't be going on forever so be sure to purchase while the sale is active!

Se7enSec - December 30, 2019, 5:42 pm

Who the f**k even plays X360 anymore?

Post some god damn quality for fk sake.

Regards,
Se7enSec.

I am surprised to find you here. Just letting you know that I used this years ago and it's nice to see an old face (you won't know me of course). I hope you enjoy the 30 Bytes, that is a lot in my books!

Thank you for providing this, just a bump and a little vouch to let people know that this is worth the purchase and works very well.

It puts a smile on my face to know that someone somewhere out there has and still is using my stuff after so long!

Shoot me a DM with your username on my site, I'd like to give you something.

Is it resolving the IP in real time?

If not, most people have dynamic IP, so it would be useless...

The only resolving is done XUID<>GT. It's not actively resolving the IP in real time, this is a consistently growing database now with over 4 million entries, each one with a timestamp and other information.

As of 4/10/20

Unique Gamertags: 1,618,893

Unique IPs: 2,403,177

Unique XUIDs: 1,483,170

Total Entries: 4,128,571
