When I get the other 2 reviews back, I'll think about it. You'll likely be the last person to get a vouch copy.

Techius - August 26, 2017, 6:15 am

I've decided to accept Ethereum. To celebrate this, you can get a 10% discount off the guide by using the coupon code "ETHEREUM".

It's common sense to accept Ethereum now. The fees in Bitcoin have gone retarded. \$5.22 in fees alone for a \$5 book. That's fucking nuts. I have Bitcoin, and there's no incentive to move it around. I'm keeping it completely still. Why would I want to move money around just for it to be raped by fees and greedy miners?

I think it's sad that Bitcoin has gone from something that once advertised itself as a cheap way to send money to something that's more expensive than it's competitors. It's frustrating that people don't even want to support Segwit and bigger blocks. It's completely necessary, otherwise the BTC economy (especially on low-cost things) will be non-existent, which is something I don't want to see.

Techius - August 30, 2017, 4:17 am

Elite eWhoring guide is 10% off to celebrate us accepting Ethereum!

Use the code 'ETHEREUM' in the purchase to get a good deal -- 2 books for the price of 1!

Techius - October 1, 2017, 4:34 am

This is still on sale. I just had to correct a little typo in the thread "feel" not "feek".

And yes, you can still use the code 'ETHEREUM' for 10% off.

Techius - *December 10, 2017, 11:52 pm*

BTC fees are a pain, at the minute. I wouldn't even bother using it. Ethereum is accepted, and you can use the code 'ETHEREUM' to get 10% off because fuck BTC fees.

Techius - *December 21, 2017, 6:19 am*

You can now use Bitcoin Cash to buy this guide. Ethereum is still an option, like it always has been. The code 'ETHEREUM' also still works!

Techius - *April 19, 2018, 7:19 am*

This still works! I eWhored the other day using this method and am still successful with it. If you're having issues with snapchat, this is a good method to use as well!
