Thread: [No distribution scanners?](#)

Wings of Redemption - May 9, 2017, 4:17 pm

Some of the prominent scanners that don't distribute are not working for me. Pscan and majyx are not working for me.

Anybody know of any other services that do not distribute?

<http://viruscheckmate.com/en/>

Do you happen to live under a rock? lol

tcsh - May 9, 2017, 5:15 pm

Why exactly aren't they working? might wanna put in some more details on that.

You could always use Tor and access the sites.

Because the scan4you api is brok

Do you also live under a rock?

HOLLOWZ - May 9, 2017, 6:17 pm

Lmao this whole thread smh why niggas be so hostile

Zenomhunter - May 9, 2017, 6:17 pm

There are many sites such as viruscheckmate and nodistribute :P

Wings of Redemption - May 9, 2017, 8:34 pm

everytime i use nodistribute i get a "This site can't be reached" in chrome

viruscheckmate costs money

Scan4api is not working thus all scanners which use scan4api will not work. I think they are fixing this, so no worries. (I guess?) Have a nice day buddy! ?

3azraiell - May 10, 2017, 9:55 am

scan.majyx and pscan and nodistribution all have problems at this moment they are at maintenance i think .

we hope they fix thous problems as fast as possible

nightkyze - May 12, 2017, 3:53 pm

search up nodistribute on google i recommend it
