Thread: [Seeking a PPD Mentor \(Advanced-Friendly\)](#)

ogRizah - May 10, 2017, 5:18 am

Hello,

I'm seeking a mentor to help guide me to a higher skill level in PPD. Meaning that I already have techniques, a niche, and a way to gain traffic. I've actually made over 100\$ with PPD before. It's been about 5 years or so since I've taken a big effort to try and earn. I can have money to invest into this journey. I also have a decent amount of knowledge about it. I'm looking for a mentor that can help me with SEO, ranking youtube, ranking videos and other things of that nature that will gain me more traffic, and a higher conversion rate. It seems my old methods are dated.

If you can help, reply to this thread then we can PM and negotiate how to do this, if it be through skype or another way. Also, any pre-requisite questions can be asked here.

What's stopping you from putting it all together?

I already have put it together, I'm getting a few views / Clicks a day, but nothing about 5-10. My old method doesn't work as well anymore.

So what do you want from mentoring? A new method that will bring you more traffic? You probably wont find someone who gives you that. I would suggest asking specific questions rather than looking for general mentoring/how to make money step by step.

If you are making 5-10 clicks a day, can you scale up 100x to make 500-1000 clicks a day?

How to correctly increase traffic, optimize website, get quality traffic, optimize video. Just make my project overall more professional.

Not sure how to scale up to make more.
