Thread: [Origin Accounts | Any Origin Game | Just \\$4](#)

Effexion - May 10, 2017, 7:40 am

We will be selling any Origin account for \$4. This includes all the latest and greatest in Origin's vast collection.

Sadly, we can not offer a warranty as the passwords can easily be changed by yourself and reported as broken. That being said, all accounts will be hand-checked prior to delivery and fully working.

All of our accounts come with full access. This means that you will have access to the security answer and have the ability to change the password securing it for yourself.
