So this is odd. I don't know why I like it. It's blues, mixed with black metal as they describe it.

Oh and it was apparently inspired by 4chan.

Lead singer asked 4chan what genres he should put together, and apparently this was the result.

The black guy is actually half white half black and the half white consumed him. This is why he is there.

Well I'd say he has a fair mix of both.

A white man can't sing like that, not often.

That tittle was just a little bit too much don't you think haha however I don't understand this band but eh everyone has their own taste in music. Not to mention the drummer looks like a pedo version of PewDiePie just a personal opinion though haha.
