Thread: [Skype Resolvers Working again](#)

B RAW - May 11, 2017, 12:04 am

So apparently skype revolvers are working again i guess its officially time to move to discord lel

There was an API that got passed around.

It's been like this for a while now.

Just never log into Skype with your real IP Address.

But Discord is slowly winning against Skype anyways.

All Discord needs now is Video Calling, and actual Calling.

Yeah skype is really unsafe and you can get spammed easily, there's this skype dic where people can put your name in and mostly cam girls will get your skype.
