BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the read if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep ask me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

REVIEW:

Vouches:

Spoiler ([Click to View](#))

0/10

There is only one [guy](#) that posted a gif. image.

He says he is not affiliated under any circumstances with the seller, but he posted the second day after release a 2,000\$ proof, saying he knew the method before and it took him only 25 days / 30-60-min day of work, which is quite sketchy considering I know the method and it's nothing like that.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration.Vouches without legit-proofs are not taken into consideration.Text-proofs are not taken into consideration. This is a community and in the end people connect to each other either by friendship or a common interest they'll provide a vouch.

Profits:

Nothing to analyze here.

He doesn't provide any proofs of the profits he made with his own methods.

Methods:

Amazon Gift Card Method:

Method

How much investment does it require?

Minimum of 0\$ is required.

Description:

The platform where this method is applied is well known. However the method itself is unique.

It's saturable, the more people will know about this the harder it will become, to perform and even acquire those cards.

Requires brainstorming/creativity - nothing hard at first but it will become harder and harder with each attempt.

Time: Requires few weeks to set-up, not because it's hard but because that's what is required.

You have to build trust/positive feedbacks. Which is also the hardest part in this whole process. However, the seller provides you a system for that.

Requires work and effort, the more time you put into this method the more money you'll make.

Personal review:

About the product:

Spoiler ([Click to View](#))

4.5/10

This note could've been higher, but:

-I am amazed how this method is not patched yet. Because it's actually a flaw in the websites platform. The more people will know about this the more saturable it will be, the more saturable the higher the chances of getting patched.

-It's quite unique, I've never seen this method before.

-But despite its uniqueness has it's flaws, the trust/feedback system that the seller set-up, it's an ingenious idea but doesn't really payoff that well.

-I don't like the fact that you kinda need to rely on sellers support to get everything done. If you decide to skip his support you may end up investing few bucks. - nothing too expensive.

-After everything is done, in order to acquire the gift cards you'll have to compete with other buyers.

About the seller:

Spoiler ([Click to View](#))

7/10

- Seller is not shy with his product and states from beginning what he is selling.
- Seems he answers all questions and doesn't avoid any -more involved- question from customers.
- He doesn't deceive his customers with false advertisement or expectations, what he offers that's what you get.

Doesn't provide proof of earnings with his own method.

This grade reviews his way of advertising, addressing to potential customers and his way of convincing them. - The release is quite recently, nevertheless, there are no requests for refunds or complaints in his main topic.

Chasun - May 12, 2017, 12:39 pm

Really nice review. Finally glad that someone saw a flaw in the BS "vouch" system and took initiative on it.

Keep it up.

Like I said I already knew this method beforehand, I used it in November-January.

I can confirm that the setup takes 2 weeks or so however after that I really barely did anything.

It is, or well if you were early. As you can see the prices of these giftcard are 50-100x what they were 2-3 months ago.

So they now may take some more time to get however I wrote about my own experience.

P.s thanks for a the reviews you are greatYou're welcome.Again, just to underline this thought most

of you have - I don't review only bad products, maybe for you, this 5/10 is exactly what you need to make money.

For people that have similar concerns, I've made a [Review Request](#) topic. What this implies is: send me a PM with the product you want to be reviewed. The more requests that respective product has the higher the chances to see a review about it.

Mr. Reviewer - May 17, 2017, 1:36 am

A user pointed out this method is blackhat.

Quote:(Regarding <https://hackforums.net/showthread.php?tid=5621431>)

Hey man, I really like your review, however, I noticed you forgot/left out about it being 100% blackhat whilst Ombra claimed that it isn't blackhat.

I mean, the method is about defrauding the seller/the site, I'm sure that fraud is illegal lol

Again, great review man. Now, this is true..and unharmed, if you accomplish this successfully you affect your account which is actually the point...if you get your account blocked means you've successfully accomplished the method.However, you don't have to provide any real information about you and be a rogue, which really won't matter if it's blackhat because your own liberty is safe.
