Hey guys just wanted to share a way CS:GO players can get free skins daily and account balance every 24H.

Register <https://hellcase.com/>

Click add funds and put promo code: FREESTEAMKEYS

You will receive free 0.30 to open a case and you will be also supporting me.

Cheers ?

No you input it 1 time and you will get free balance to open 1 case. You have the daily free witch can give you a skin but normally balance. You just need to change your steam username to: YOURNICK hellcase.com (relog after change username). And you will be able to open case every 24 hours
