Vouches/Reviews

(May 14, 2017 01:11 PM)Sore. Wrote: [\[CITE\]](#) Received a vouch copy. I'd say is a very well written ebook and it contains a lot of helpful stuff. The structure of the ebook itself is good looking and well organized. With this method you'll create a personal ewhoring pack and can be sure it will not be saturated. If you are an expert ewhorer you maybe already know the method, but if you are new to ewhoring and struggling on how to create a good personal pack, this guide is for you. Definitely worth the cheap price of 5\$?
