DJ Nadisty's Live Mix Thread

<https://www.youtube.com/watch?v=mulIPuVRCcA>

Hey guys, whats up. Some of you guys know me on HF and some don't. Some of you may have heard me on [ps://soundcloud.com/nadisty](https://soundcloud.com/nadisty) and liked some of my stuff. Some of you guys may know me from [HF Live](#) as a host and ex-manager. I've thought and that some users could do with some music as they browse HF or game or just want to watch how mixing is done in general (as music makes the world go round). Sometimes i may host giveaways and other competitions.

This thread is mainly just for documentation purposes for when ever I do live stream and to let others know I am.

Some of the genre's I can mix are below;
House

EDM

DnB

Hip-Hop

Rap

Techno

Dance

Melbourne Bounce

Electronica

Trance

90's / 2000's

Mashups

Much more to list, those are just the main ones

What I'll be playing are popular songs to throw backs. I always try to fill my sets with energy.

So will you be joining me on the live stream? You can find the link at the top of the page. Or here. Please feel free to post any feedback you may have good or bad, so I get improve myself, cheers!
