Title pretty much says it all, looking for a very reputable member to give a vouch copy to in order for a honest review and all deals will be made using a middleman, This method comes with full instructions from a-z, Custom Software and Full support from me until you are comfortable doing the method on your own

This just screams fishy to me.

Deal with extreme care, even if this user offers to use an MM.

So what's part of the scam? Gain remote access to the victim's computer and steal his bitcoins?

Very eager to know!
