Thread: [Multi Exposed | UID=3201696](#)

YayHar - May 14, 2017, 4:05 pm

[EasyPeasy](#) gave reputation to the user [AutoComplexx](#)

AutoComplexx was banned today for being a multi.

AutoComplexxes multi was also positively repped by EasyPeasy.

[AutoComp1ex](#) was the original account and was banned first.

The newer Multi AutoComplexx has only 3 posts and was given reputation for supposedly doing a deal with EasyPeasy.

So you're telling me a user who joined on May 4th with 3 posts completed a deal with somebody hours after joining?

It's not impossible, so let's keep going.

EasyPeasy made a thread requesting a reddit upvote he made.
<https://hackforums.net/showthread.php?tid=5552567>

As you can see it was edited today.

Why would he edit it today? I asked him in PM if he owned the kik Chiaralepont.

Why would I ask that?

The reddit account he asked an upvote for was this one:

<https://www.reddit.com/user/Chiaralepont>

The kik listed is Chiaralepont.

Obviously being used to ewhore.

Just a side note, AutoComp1ex tried to join an ewhore group.

<https://hackforums.net/showthread.php?tid=4395984&pid=54792307#pid54792307>

So EasyPeasy owns the reddit that owns the kik Chiaralepont?

These users also own the SAME KIK:

<https://hackforums.net/showthread.php?tid=5340237>

<https://hackforums.net/showthread.php?tid=5369657&pid=52049098#pid52049098>

Just in case you don't believe me about the reddit edit, he asked how to promote a youtube video / get views.

<https://hackforums.net/showthread.php?tid=5466420>

What was the reddit post he was trying to get votes on?

It was a YouTube video.

The comment he wanted voted was made by a user called "userbelow1"

Proof that was the user:

On multiple occasions userbelow1 replied to the video posters posts...

<https://www.reddit.com/user/Userbelow1>

Meaning they have the same owner.

UPDATE:

EasyPeasy is trying to say he doesn't own the reddit Chiaralepont. The video posted on the Chiaralepont reddit was recorded from an ipad, and EasyPeasy is posting his screenshots... FROM AN IPAD.

I am using off site proof so staff can't really do anything, but community can stay safe.

Interesting, similar to my CA last night. Nice job, coming back strong.

Corruption - May 14, 2017, 4:07 pm

Posting this so I can come back and see what happens.

Rock™ - May 14, 2017, 4:07 pm

I've been fucking saying this for how long now. I made a thread about his fake proof and shit. Thanks for exposing this guy. Seems promising

Bluffer - May 14, 2017, 4:13 pm

Nice job taking the time to put this thorough evidence together. Maybe he'll be banned if this adds up. Either way this is something for everybody to consider before doing a deal with him.

EasyPeasy - May 14, 2017, 4:14 pm

I will look into this sec

Okay, I just read the first sentence. I had an currency exchange thread open and autocomplex added me, and we talked via skype, I will show some proof, I will keep reading after adding the proof. And perhaps you left a lot out of this. Also, I dont know the user, today, I just got a random PM from him. I will keep updating, trying to find autocomplex on skype.

I knew you were going to make some lamentable stuff on me the moment I saw you rep farming after the PM.

I dont see the link your making with the image of "userbelow" saying "kay mate". I might have asked the comment "kay mate" upvoted, so how does it link it to me?

<https://imgur.com/a/l2UBs>

Also take in consideration, I dont know him at all. He just came back from his ban and is looking for beef. Look st the PM, that is the first PM he sent me.

Also, the link you have made are broken. You left out alot of stuff, the replys I have given you, I told you I'm not the handle you claimed.

And Rock. What happened to the guy who was sorry and all dramatic of how sad it were.

Well this is pretty interesting. Wonder what way this will go. Going to follow the thread and see what the conclusion is.

Within the time this thread has been up, he has edited not only 1 thread, but has deleted the reddit

account in the process. Seems kind of suspicious how you claim not to own the reddit, and once it gets a spotlight it gets removed.

Oh boy. Look at your facts, I swear on jesus that I have not deleted the account after you made this thread. Link was broken even the moment you posted the thread.

Yeah, fool. This is userbelow1, that is me. That is correct, I posted "mkay mate", I needed karma.

Anyway, I wont reply to your bs, ima stop replying to give you more attraction to farm some rep, welcome back on HF just today lel.

Also, does it look like I ewhore?

Hexalogy - May 14, 2017, 6:56 pm

I do think everyone should just be careful; and watch out. To be on the safe side, if it really is multi's hopefully its not for scamming just for "vouches" and what not. Then again could be paranoia ?

If you look at the way both of them type, it's almost identical. Kinda odd. Good catch man.

I also want to point out something.

I've asked some innocent questions about a product he was [selling](#), and he -rep me because he didn't like the questions.

Payback time mf.

<https://hackforums.net/showthread.php?tid=5618090&pid=54796931>

I've pointed out that his vouchers are from 2016 and also how he can have vouchers from same day he released the product. (he removed now the date from quote that shows the posts were made in 2016) .

So I've searched the name of his vouchers and it points out few of the "vouches" vouch in other 4 EXACTLY same threads that use exact same "vouches" on his exact same product. He changed only a bit the design.

This looks pretty much valid to me.

I'm not taking any sides in this, but the "So you're telling me a user who joined on May 4th with 3 posts completed a deal with somebody hours after joining? It's not impossible, so let's keep going."

Is it entirely possible, I joined and made a deal around 2 hours after I joined, again I'm not taking any sides, just sayin.

It is possible, but in my eyes will always look odd.

This guy just gets back from a nice little vacation and hes spending his first few returning days hunting multis like a champion. lol

Glad someone has the time to go through everything and connect all the dots together. Seems like a pretty damn legit report to me ?

YayHar - May 15, 2017, 12:56 pm

I want the communities opinion on this.

To me it's a pretty solid report, but I need a cynical counterpart so I can build it a little more.

YayHar - May 16, 2017, 1:39 pm

I want this to get some recognition.

DWC when dealing with this user.
