Thread: [I also just cashed out all my XRP. Made \\$27450](#)

Cryptic™ - May 15, 2017, 11:29 pm

Sold my 90564.14766 XRP which I bought for \$1117.099977 on March 30, 2017 for 16.06114631 BTC on Poloniex right now for \$27450.

1 BTC is currently equal to \$1709

Huge shout out to [Grizzlies](#) he's given me excellent advice over the past couple of months which has lead to me making tens of thousands.

I've never had this amount of BTC at once before lol.

<https://i.imgur.com/uY6j32H.png>

Will be studying coins for the next few hours to determine what I should invest into next.

I started investing into Altcoins in march and it just blows my mind that I turned a simple 1K investment into over 27K

<https://myaltcoins.net/view.php?u=1>

PROOF

(Note. I had 0.57220030 BTC in my balance before I cashed out which is why the BTC balance is 0.57220030 higher)

OneEightSeven - May 15, 2017, 11:30 pm

If you don't make a video and keep refreshing your poloniex page, then ripple haters will say its fake ?

on a serious note: congrats dude \$1k to \$27k is awesome

Thanks.

I would have held it longer but.

1. Ripple peaked ~ 30 cents today and will most likely crash and restabilize soon. I sold at 0.00017779 like 30 mins ago and it's already at 0.00017400 and slowly dropping as more people dump the coin.

2. I could use the money to invest into a bunch of other coins which will make me way more than what I would have made had I kept holding onto Ripple.

Yoshi - May 15, 2017, 11:58 pm

I'm the oldest group owner on HF.

I wish I was into AltCoin investing when ETH was in it's early days. \$6-\$8 a pop would have been amazing.

I have 204.064936 ETH right now that I bought between \$28 and \$49 for a total of \$7630.352474 which is currently worth \$18959.244656.

11K profit if I sell now but I believe ETH will replace BTC one day so I'm holding those indefinitely.

Never have regrets when you cash out.

Money is a collective agreement. If enough people come to the same agreement, what they agree upon becomes secondary, whether it be farm animals, gold, diamonds, paper, or simply a code. History proves all these cases to be true. Who knows what the future is going suggest to us as money, once we see digital currencies as ordinary?
