Millimeter Peter - May 16, 2017, 9:09 pm

I think the 1080 is just a bit too high for being used.

Also I don't want to rub my ears with your headphones :P

Lufasu - May 16, 2017, 9:10 pm

I can afford all of them in the 10th of next month.

but since my country taxes are huge, I just want to ask about the razer blackwidow, how is it?
and when you send it, you write a note with the price on it?
What about mouse, you have?

BottomNotch - May 16, 2017, 9:13 pm

I'll take the headset for half that lmk :) You got a mouse for sale?

Both blackwidow keyboards are nice, but I prefer the RGB as it looks nicer.
I can send it with a note of the price on it if you prefer?
