Thread: [\[RELEASE\] NetMerge v1.0 \(Fixing bugs rn...\)](#)

DelusionalGhost - May 17, 2017, 2:56 pm

so i got bored and thought of making a merger that merges exes into one, not like ILMerge, but its simple and easy. just select your files, method, then bind!

PRO

-if you dont have a .NET, you can still use Scantime

CON

-it doesnt close after both programs are closed, but ill fix that soon.

You should probably post a virus scan.

YOOOO GHOST IT'S ME!

BRANDON!

senbon - May 17, 2017, 3:59 pm

Thanks probare, is it undetectable?
