How To Get ANY \$7 E-book For FREE

Please say thanks if you liked this tutorial. It just takes one second and it takes plenty of time to post up these tutorials for you guys. I am trying to get my rep up so please rate this thread if you liked and comment. Thanks.

So let me do a live example for you to demonstrate that I am not lying.

Let me take you to the popular 7 dollar secret website which has all the 7 dollar e-books that you can find.

<http://www.7dollaroffers.com/>

This is a popular “e-shop” for 7 dollar e books and makes a lot of money selling these. However, I am about to share a METHOD that will make you go WOW – you will never have to pay for a 7 dollar e-book EVER AGAIN.

Once you are on this website browse around and familiarize yourself with the marketplace.

Okay lets say you want an e-book from there but do not want to pay \$7 for it.
Okay let me do an example.

Lets say you want an E-book on Adwords. Click the Adwords link on the website and look at the several e-books that are on sale.

Let's focus on the “9 Killer Adwords Tricks” E-book. Do you want to pay for this?
Hmm...I dont....

So what's the method of getting this for free? Click on the link that says “Click her to visit the sales page” and it should take you to the product's sales page.

[img]http://img10.imageshack.us/img10/9776/screenshot003ls.png[/img]

Scroll down right at the bottom until you come to the “PAYMENT” or PAYPAL buy now button.

[img]http://img97.imageshack.us/img97/5523/screenshot004kk.png[/img]

Click the “BUY NOW” Button and as soon as you see this message

[img]http://img822.imageshack.us/img822/8924/screenshot005z.png[/img]

Click VIEW on your Internet Browser and click "Source".
This should then take you to the HTML code of the e-book.

[img]http://img594.imageshack.us/img594/5296/screenshot006d.png[/img]

Once you do that you should search for the code "TYPE="Hidden" name="return" value

This is YOUR DOWNLOAD LINK FOR THE E-BOOK :)

Notice that the download link always has a "action=squeeze" link.

[img]http://img196.imageshack.us/img196/6605/screenshot008n.png[/img]

Paste the download link in your browse

<http://marketingez.com/9-killer-adwordstricks/?action=squeeze>

[img]http://img651.imageshack.us/img651/350/screenshot007eb.png[/img]

And NOW you have the Report for FREE without HAVING TO PAY :)

This works for the majority of e-books on the site and other sites. Let's do another example shall we?

Follow all the steps above and let's pick another random e-book on the site.

<http://www.7dollaroffers.com/index.php?action=dir&cat=&start=0>

Let's focus on buying the first e-book - "Blackbook of Craigslist marketing"

Go to the salespage <http://www.trade24-7.com/craigslist/>
and repeat the above steps.

Once you are on the source code page you should again look for the

TYPE="Hidden" name="return"

Paste the above URL DOWNLOAD SECRET link in your browser.

There you have it – The method worked again!

Try this for other 7 dollar e-books on other websites. Most of the time it works.
