I have to say this is probably my guilty pleasure, I don't fuck at all with Chainsmokers, but Coldplay is one of the best.

Ah, that was the phrase I was looking for.

My guilty pleasure ?

My friends would probably call me gay if I ever put this song on the aux lmfao. I enjoy all types of music but they're like hood music only lmfao.

Small collection for a general idea of what I play on the aux for them. I'm surprised they even let me play Location - Khalid:

Hahahahah my friends will say the exact same thing! Hahahaha man those are some fire tracks! I will try and listen to them! Although I already love mah boi Post Malone, he is a living meme!

Some of the tracks I listen today are Kdot's Damn, J.Cole's 4 your eyez only, Tryler, the Creator's Cherry Blossom, Kanye's Life of Pablo, and Gorillaz's Humanz!
