No offense but did you seriously start a thread to ask questions that could easily be answered by searching the Ewhoring section where you posted the thread at?

I don't see the need to upgrade. I don't see any benefit to it and I doubt that it would allow me to make anymore than I already do.

Honesty, it's bad. It involves so much time and patience. I don't think it's worth it.

Doing three hours yesterday earned me 60\$ haven't started doing today but on average you can earn 40-50\$ everyday with no skills and einvestment.

It depends how good you are with SE. It can take a lot of time and effort to learn how to execute a sale within a short period of time. If you want to learn then go for it! Just don't expect to be making loads of cash until you've learnt your way around!
