Thread: [do you ever fantasize about having a cartoon bf/gf?](#)

RottenTomatoes - May 19, 2017, 8:08 pm

like I guess this is a common thing for people who watch anime, but personally I really wish I could have a Lucario as a bf. I would cuddle a lot and hold his hand as we went around everywhere. It wouldn't even have to be sexual or gross or anything, I am really just attracted to the idea of his affection.

Makaveli The Don - May 19, 2017, 8:42 pm

Not really but if I had to choose, I would take Tifa Lockheart. Her sexiness is on another level.

I feel like it would be interesting to live in the universe of some cartoons, but not in like any sexual way.
