(May 21, 2017 11:59 AM)M?xxi Wrote: [\[CITE\]](#) Got the vouch problem from OP, sent him some advanced circuit design and logical proposition work for a college level math class.

He sent me back 2 pages of hand written work for one single problem, and also sent me what I needed to prove the statements. He also gave me my work a day earlier then he said which is nice. Looks to be pretty good so far, if the answer checks out I'll be using OP for more work.

Edit: all the work was correct :)

Ah oh well that might be better for me since I've gotta pass my exams on myself not on the work of others. Thanks anyway
